Commercial Locksmith Services

Master Key Systems

A Master Key System is an integral part of any business' security. It allows access to individuals or groups of key holders, only to certain specific areas of a building. Each specific area would contain a unique cylinder/lock accessible by certain keys, but not others.

Secure Locking Solutions from Industry Leaders

At Barrenjoey Locksmiths we are continuously keeping our high security Commercial and Industrial Key Systems up to date, giving you the longest possible design patent available, and therefore giving the best return on investment.

ABLOY® PROTEC2 is the latest milestone in the development of the unique ABLOY® rotating disc cylinder keying systems that offers several unsurpassed and superior security features and benefits.

The new Lockwood MT5 locking system is protected by key patents and also offers a high technical key copy protection that guarantees the technical key security of a mechanical locking system.

This high performance cylinder system is suitable for large master key systems. The Kaba Expert™ is the most secure system to guard against picking, raking, bumping, impressing or manipulation with a key.

BiLock's distinctive dual edged key & logo symbolise quality & reliability. This fact has been acknowledged with Australian Lock Company being the recipient of numerous design awards.

Solutions for all Sectors in Australia & New Zealand

We can manage your Industrial Locks and Alarm Systems for every commercial sectors in Australia and New Zealand, giving piece of mind that you only have to deal with only one reputable locksmith.

Electronic Security

For over the past 25 years, Barrenjoey Locksmiths and Alarms have supplied, installed and serviced a variety of Alarms, CCTV, and Access Control Systems for our clients. We supply the highest quality products and our professional, friendly customer service and excellent workmanship ensure customer satisfaction.

Design, Supply, Install & Service

Back to Base Alarm Systems

Back to Base Alarm Monitoring takes the stress out of personally monitoring your own alarm system. They are also extremely beneficial for smoke alarms, medical alarms for the sick and elderly and can even include panic or hold up button alarms.

Security Access Control Systems

Barrenjoey Locksmiths & Alarms can design an access control system for almost any possible situation, from a single stand alone door to large systems with hundreds of doors with elevators, garage doors, boom gates etc integrated into the system.

SALTO
inspired **access**

Clay by SALTO is the easy, secure cloud-based wireless locking solution for small and medium sized enterprises. Revolutionary in design, usability and features.

"Immediate access control. From everywhere. Truly wireless!"

Also now available in access control systems and is becoming more available & common is biometric readers. Biometric readers identify a unique physical characteristic feature like as fingerprints, iris identification or hand geometry.
